ShoPro Marche and In-house Cafe

Members of the Farm

In-house Cafe

Private School Children Pokémon Global Academy

Opened in April 2016 and based on the educational know-how cultivated by the Shogakukan Group over many years, this one-stop after-school education facility provides not only traditional after-school care, but also a “fun and educational time and space” filled with many learning elements. It is a one-stop after-school education facility.

We offer a wide variety of programs and educational materials with an awareness of the “real world”. We provide a fulfilling after-school experience.

ShoPro Marche, In-House Café Initiatives

ShoPro and Shogakukan Academy Co., Ltd. are collaborating on initiatives to promote the employment of people with disabilities.

At ShoPro Farm (a farm in Saitama Prefecture), we grow pesticide-free vegetables and regularly ship fresh produce to our offices and daycare centers. We also hold “ShoPro Marche” vegetable distribution events at our office to foster interaction among employees.

In addition, we operate an in-house café that hand-selects green coffee beans to provide high-quality coffee. We use this delicious coffee to help employees relax and promote communication.
